New OAR Training

Integrated Services and Supports Rule (ISSR)

April 14, 2010

Black Bear Inn, Market St. at I-5, Salem
6.5 hours CEU

Registration at 8:00 Training 8:30-5:00 Lunch Provided

BCN is hosting the staff from Addictions and Mental Health Division who will provide training on the long-awaited revision and combination of multiple administrative rules into the new ISSR.

This training is most relevant to administrative and clinical leaders in your programs who will be responsible for implementation of the new requirements within your agency. The changes will include required policies and procedures, revised clinical documentation expectations, changes in the quality improvement systems required, etc., etc., etc. They will also clarify which requirements are subject to Medicaid audit and potential repayment penalties, and which are quality expectations to be addressed as part of the AMH site review process.

The training will include the opportunity for break-out discussions by program type. This will let us dialogue with AMH staff about how they will interpret relevant sections of the rule, and identify topics that we want to work on together as a region as we implement the new rule.

Name _____ Phone _____

PLEASE PRINT CLEARLY

Name of Agency _____ Fax _____

Which break out session will you join? adult mental health children's mental health A&D

FAX Registration to 585-4989 FINAL Deadline: April 2
