# Integrated Treatment Planning

## *MVBCN Co-Occurring Disorders Training*

**September 23, 2010**

**MVBCN, 1660 Oak St. SE**

6.5 hours CEU (ACCBO)

**Registration at 8:00**

**Training 8:30-4:30**

**Lunch Provided**

The goal of this training is to develop pragmatic strategies for taking complex information and developing clinical formulations and treatment plans that address the interactions between substance abuse, gambling and mental illness and help people reach their recovery goals. This training will use the structure of ASAM 2R patient placement criteria to address common co-occurring treatment issues.

**ALL PARTICIPANTS ARE EXPECTED TO BRING SAMPLES OF YOUR CASES TO THE TRAINING AS A METHOD TO APPLY YOUR LEARNING.**

**About the Trainer: Janet Bardossi MSW, LCSW** has worked in social services for well over twenty years and currently serves as the director of an independent consulting business dedicated to increasing recovery opportunities for individuals, families and communities. Janet has developed innovative programming serving individuals with mental health and addictions issues since 1990. Her work has focused on the transition process for individuals returning to communities from jails, prisons and institutions. She is currently working with on a national project focused on access and engagement issues in healthcare for addictions and co-occurring disorders treatment.
