

Agency name: _____ Person compiling report _____

Please indicate for which medications you expect monitoring – some agencies do this for all, some just for medications with metabolic risk

Medications increasing metabolic risk; or any psychiatric medication

It is preferable for you to pull data for all individuals prescribed medication in whichever of these categories you are using. If you compile this report based on a chart review sample, please describe your sampling methodology. _____

A	B	C	D	E	F
# individuals included in reported data	% getting weight or waist or BMI measured Target 90%	Number with (>5%) weight gain since initiation of psy meds	Number of PCP notified of weight gain with letter or progress notes Target 100%	# given Projectable/ROCC wellness calendars or alternative weight loss treatment information	% getting blood pressure measured Target 90%
G	H	I	J	K	
Number requiring labs to be ordered	Number with labs ordered	% lab tests ordered =Column H, G Target >90%	Number of ordered lab results NOT received (exclude any ordered within last 30 days)	% of ordered lab results NOT received =Column J, H Target <10%	

If your results don't match targets in Columns B, F, I, or K please answer these two questions:

1. What problems account for the lack of adherence to your guidelines?
2. What actions are you taking to correct identified problems?
3. C- Initiation period starts January 2018
4. Project Able Wellness calendar <https://projectable.org/what-we-do/calendar/>
5. ROCC calendar <http://www.roccsaalem.org/calendar/>
